Chocolate Cities-Marcus Anthony Hunter 2018-01-16
When you think of a map of the United States, what do you see? Now think of the Seattle that begot Jimi Hendrix. The Dallas that shaped Erykah Badu. The Holly Springs, Mississippi, that compelled Ida B. Wells to activism against lynching. The Birmingham where Martin Luther King, Jr., penned his most famous missive. Now how do you see the United States? *Chocolate Cities* offers a new cartography of the United States—a “Black Map” that more accurately reflects the lived experiences and the future of Black life in America. Drawing on cultural sources such as film, music, fiction, and plays, and on traditional resources like Census data, oral histories, ethnographies, and health and wealth data, the book offers a new perspective for analyzing, mapping, and understanding the ebbs and flows of the Black American experience—all in the cities,

towns, neighborhoods, and communities that Black Americans have created and defended. Black maps are consequentially different from our current geographical understanding of race and place in America. And as the United States moves toward a majority minority society, *Chocolate Cities* provides a broad and necessary assessment of how racial and ethnic minorities make and change America’s social, economic, and political landscape.

Burning Down the House-Jane Mendelsohn 2016-03-15 "It begins with a child . . ." So opens Jane Mendelsohn's powerful, riveting new novel. A classic family tale colliding

with the twenty-first century, *Burning Down the House* tells the story of two girls. Neva, from the mountains of Russia, was sold into the sex trade at the age of ten; Poppy is the adopted daughter of Steve, the patriarch of a successful New York real estate clan, the Zanes. She is his sister's orphaned child. One of these young women will unwittingly help bring down this grand household with the inexorability of Greek tragedy, and the other will summon everything she's learned and all her strength to try to save its members from themselves. In cinematic, dazzlingly described scenes, we enter the lavish universe of the Zane family, from a wedding in an English manor house to the trans-global world of luxury hotels and restaurants—from New York to Rome, Istanbul to Laos. As we meet them all—Steve's second wife, his children from his first marriage, the twins from the second, their friends and household staff—we enter with visceral immediacy an emotional world filled with a dynamic family's loves, jealousies, and yearnings. lush, exact prose, Mendelsohn transforms their private stories into a panoramic drama about a family's struggles to face the challenges of internal rivalry, a tragic love, and a shifting empire. Set against the backdrop of financial crisis, globalization, and human trafficking, the novel finds inextricable connections between the personal and the political. Dramatic, compassionate, and psychologically complex, *Burning Down the House* is both wrenching and unputdownable, an unforgettable portrayal of a single family caught up in the earthquake that is our contemporary world.

Here is a thoughtful, historical account of her life beginning with her childhood influences. Much like the award-winning picture book biographies that celebrate trailblazing women like *The House that Jane Built: A Story About Jane Addams* and *Hillary Rodham Clinton: Some Girls Are Born to Lead*, Camille Andros and Tessa Blackham's *From a Small Seed—The Story of Eliza Hamilton* is an accessible portrait of an exemplary public figure whose principles have stood the test of time. was growing up, women were supposed to be wives and mothers. Some women could be teachers or seamstresses, but career options were few. Certainly no women were doctors. But Elizabeth refused to accept the common beliefs that women weren't smart enough to be doctors, or that they were too weak for such hard work. And she would not take no for an answer. Although she faced much opposition, she worked hard and finally—when she graduated from medical school and went on to have a brilliant career—proved her detractors wrong. This inspiring story of the first strong-willed woman opened the doors for all the female doctors to come. Jane Addams: Spirit in Action-Louise W. Knight 2010-09-06 In this landmark biography, Jane Addams becomes America's most admired and most hated woman—and wins the Nobel Peace Prize. Jane Addams (1860-1935) was a leading statesperson in an era when few imagined such possibilities for women. In this fresh interpretation, the first full biography of Addams in nearly forty years, Louise W. Knight shows Addams's boldness, creativity, and tenacity as she sought ways to

put the ideals of democracy into action. Starting in Chicago as a co-founder of the nation's first settlement house, Hull House—a community center where people of all classes and ethnicities could gather—Addams became a grassroots organizer and a partner of trade unionists, women, immigrants, and African Americans seeking social justice. In time she emerged as a progressive political force; an advocate for women's suffrage; an advisor to presidents; a co-founder of civil rights organizations, including the NAACP; and a leader for international peace. Written as a fast-paced narrative, Jane Addams traces how one woman worked with others to make a difference in the world.

All the Frequent Troubles of Our Days

2021-08-03 A New York Times Bestseller A New York Times Book Review Editors' Choice The "highly evocative, deeply moving" true account of the extraordinary life and brutal death of Mildred Harnack, the American leader of one of the largest underground resistance groups in Germany during WWII—"a stunning literary achievement" (Kai Bird, author of *The Outlier* and co-author of Pulitzer Prize-winning *American Prometheus*) Born and raised in Milwaukee, Mildred Harnack was twenty-six when she enrolled in a PhD program in Germany and witnessed the meteoric rise of

the Nazi party. In 1932, she began holding secret meetings in her apartment—a small band of political activists that by 1940 had grown into the largest underground resistance group in Berlin. She recruited working-class Germans into the resistance, helped Jews escape, plotted acts of sabotage, and collaborated in writing leaflets that denounced Hitler and called for revolution. Her coconspirators circulated through Berlin under the cover of night, slipping the leaflets into mailboxes, public restrooms, phone booths. When the first shots of the Second World War were fired, she became a spy, couriering top-secret intelligence to the Allies. On the eve of her escape to Sweden, she was ambushed by the Gestapo. At a Nazi military court, a panel of five judges sentenced her to six years at a prison camp, but Hitler overruled the decision and ordered her execution. On February 16, 1943, she was strapped to a guillotine and beheaded. Historians identify Mildred Harnack as the only American in the leadership of the

Harnack's great-great-niece Rebecca Donner draws on her extensive archival research in Germany, Russia, England, and the U.S. as well as newly uncovered documents in her family archive to produce this astonishing work of narrative nonfiction. Fusing elements of biography, real-life political thriller, and scholarly detective story, Donner brilliantly interweaves letters, diary entries, notes smuggled out of a Berlin prison, survivors' testimony, and a trove of declassified intelligence documents into a powerful, epic story, reconstructing the moral courage of an enigmatic woman nearly erased by history.

It is more of a historical narrative than a straight policy book, however—telling stories of Jacob Riis, zoning reformer Lawrence Veiller, anti-reformer Jane Jacobs, housing developer William Levitt, and African American small homes advocate Rev. Johnny Ray Youngblood, as well as first-person accounts of onetime residents of neighborhoods such as Detroit's Black Bottom who lost their homes and businesses to housing reform and urban renewal.
